'Ear' Phoneme Spotter Story

The Meerkat With the Big Ears

On a farm, stood a mob of meerkats.

The six meerkats had been born at the start of the year.

The mum had lots of meerkats in the barn.

The last of her meerkats had big ears and a beard.

She kept them near to her, as it was a fear that they might get lost. At night, she put the meerkats to sleep at the rear of the barn. She then went to sleep.

When it was light, the meerkat with the big ears and beard had disappeared. She shed a tear.

At night, the meerkat appeared, so she kept him near to her. She never put him at the rear, he had to be near.
